

JASON HENSLEY

Project Manager

RESPONSIBILITIES

- Comprehensive Project Management
- Estimating and Project Ownership
- Quality Control
- Overall Project Delivery

BACKGROUND

Jason is a talented Project Manager with 10 years of professional experience in operations, supply chain, construction management and project management across various industries.

Jason is committed to driving process improvement, inefficiencies and completion of projects on time while never sacrificing quality. His strong written and verbal communication, team building skills, problem solving and interpersonal skills ensure a streamline project. He possesses management skills across both projects and people while driving cost savings and increased revenue. He's best known for innovative leadership skills on projects as well as attaining high analytical skills and a malleable approach to all end clients.
